Synopsis	<p>Administrative rules clarify statutory requirements. Changes are needed to the rules related to State Need Grant, College Bound Scholarship, and Residency to bring them into alignment with recently passed legislation. In addition, a number of administrative and technical amendments are needed for those programs and for the State Work Study and Degree Authorization rules.</p> <p>Staff are now at the beginning of the rulemaking process and have issued a notice of proposed rulemaking. The next step will be the development of draft rules in each of the areas. The rulemaking process, and WSAC practice, requires input from key stakeholders. That engagement occurs at several points in the process including, but not limited to, a required public hearing after the draft rules are published.</p> <p>Staff anticipate that public hearings would be held in late October or early November and final rules could be adopted in December and would take effect the following month.</p>	
Guiding questions	<ol style="list-style-type: none"> 1. How do legislative changes impact current rules? 2. What other changes are necessary to improve administration of the program or address concerns or issues that arise when applying the current rules? 3. What technical changes are necessary to ensure the rules are current and easy to understand and apply? 4. What are the key issues to be addressed in each of the program areas?
