2007-08 Tuition and Fee Rates
A National Comparison

Introduction

This is the 39th annual report of tuition and fee rates at public institutions in the 50 states. All data contained in this report were compiled using Washington Higher Education Coordinating Board (HECB) surveys of state agencies or individual institutions. HECB staff greatly appreciates the continued cooperation and assistance of survey respondents. Their efforts to provide accurate and timely data have enabled these reports to serve as source documents for many states as they develop their own tuition and fee analyses.

Methods

With each annual survey, respondents have an opportunity to review and revise previously reported data. Though small in number, such revisions modestly affect the national averages from those displayed in earlier reports. Revisions may reflect a mid-year surcharge, discontinuation of a nonresident differential, or an adjustment in incidental fees.

National Tables 1 through 10 provide a national perspective on tuition and fee rates and increases over the past five years. National Tables 1 through 8 display historical and current academic year tuition and required fee rates for full-time undergraduate and graduate students at public four-year colleges and universities. National Tables 9 and 10 display state averages for community colleges in each state. Each table also shows the one- and four-year percentage increases for each state/institution.

Data on the state colleges and universities represent the average undergraduate charges at 214 state public institutions, as well as the average graduate charges at 192 of those with graduate programs. Although not all public institutions are included in this survey, the large number of participating institutions provides a close approximation to state averages. In addition, a review of the averages and changes over time within the same set of institutions provides consistency.

For reporting comparability, “full-time undergraduate students” were based on 45 quarter hours or 30 semester hours and full-time graduate students were based on 30 quarter hours or 20 semester hours. Tuition and required fees include total academic year tuition and required fees for full-time students. Optional fees – such as parking or health care – are not included unless they are paid by all full-time students.

Appendix A discusses the national peer groups used as benchmarks for Washington institutions and shows how undergraduate and graduate tuition and fee rates at Washington institutions compare with those at their respective peer group institutions. It also illustrates how tuition and fee charges for the professional degree programs of medicine, dentistry, law, and veterinary medicine at the University of Washington and Washington State University compare with those at their respective peer institutions.

Appendix B is a compilation of endnotes explaining some of the reported data.

Appendix C lists the four-year colleges and universities included in the first 10 tables of the survey.

APPENDIX A

PEER INSTITUTION COMPARISON GROUPS

Peer Institution Comparison Groups

In 1988, the HECB undertook a study to develop peer groups reflecting a national perspective. Concurrently, a special joint legislative and executive study group was appointed to review the higher education master plan funding recommendations, with peer comparison groups identified as one of its areas of study. The Joint Study Group and the board worked together and adopted the following peer policies:

1. The Carnegie Commission's classification of institutions is used as the basis for selecting comparison groups for Washington institutions of higher education.
2. The national comparison group for the **University of Washington** is all public institutions in the Carnegie classification Research Universities category I with medical schools. These institutions typically offer a wide range of baccalaureate programs and are committed to graduate education through the doctorate.
3. The national comparison group for **Washington State University** is all public land grant universities in the Carnegie classification Research Universities categories I and II with veterinary schools. Research category II differ from category I by the fewer number of doctoral degrees offered.
4. The national comparison group for **Central, Eastern, and Western Washington Universities** is all public institutions in the Carnegie classification Comprehensive Colleges and Universities category I. These institutions typically offer a wide range of baccalaureate programs and are committed to graduate education through the master's degree.
5. The national comparison group for the **Washington community college system** is all state community college systems.

In 1990, the HECB adopted a peer group for **The Evergreen State College** using the Carnegie Commission classification of institutions. The board screened a composite category of public institutions in the Comprehensive I and Liberal Arts II classification. (Institutions in the Liberal Arts II classification are primarily undergraduate colleges with major emphasis on baccalaureate programs.) The selected peer institutions were also based on size, similarities of degrees awarded, and other characteristics common to The Evergreen State College.

Peers Tables 1 through 20 display tuition and required fees for peer groups of the University of Washington, Washington State University, and The Evergreen State College. Peer groups for Washington's comprehensive institutions, with the exception of The Evergreen State College, are represented in National Tables 5 through 8. Washington community colleges are represented in National Tables 9 and 10.

Also included in the peer comparison section (Peers Tables 9 through 16) are tuition and fee data for the University of Washington's professional programs of medical, dental, and law. Tables 15 and 16 display veterinary medicine tuition and fee rates for Washington State University and its national peer group.
