

Health Professionals Loan Repayment 2018-19 Application Overview & Timeline

The Washington State Health Professional Loan Repayment Program has a three-step application process, outlined below:

Step 1: Sites apply and request pre-approval status. WSAC reviews site applications and posts a list of pre-approved sites on the WSAC website. Site pre-approval status lasts for three years, contingent on the site continuing to meet minimum qualifications.

Step 2: Providers apply during the provider application cycle. To be eligible for consideration, providers must be working at a pre-approved site, or have an employment contract to start work at a pre-approved site on or before July 1.

Step 3: Sites certify the information submitted on the provider’s application and provide additional details about the physical site.

If you are a provider interested in participating in either loan repayment program, please contact your site representative. Participation in the program begins with a site pre-approval.

Application Timelines*	
*Tentative: Check announcements box at top of webpage for current status	
<i>Oct.–Nov. 2018</i>	Site pre-approval application: Single application for both FSLRP and HPLRP.
