Subject: WASFA ISIR Field Error

Good afternoon,

WASFA ISIR Error Identified and Resolved

We recently identified and fixed an error in one of the WASFA ISIR fields. The ISIR download incorrectly pulled data from the *SpouseIncomeTaxPaid* field and duplicated it into the *StudentSpouseIncomeEarnedFromWork* field.

What You Need to Know

- This error **did not affect** MFI or family income calculations in CSAW. If a student received an incorrect award in your system due to this issue, interim reporting edits would have flagged it.
- If you use the ISIR download to load WASFA data into your system, we recommend **re-uploading** the files to ensure the corrected data is included.

Let us know if you have any questions or need further support.

Take care,

Washington Student Achievement Council
