FAFSA Completion Initiative and Portal

Training Video: https://www.youtube.com/watch?v=Q6X9SZJHHbg

Publically available data: https://fortress.wa.gov/wsac/portal/fafsacompletion

Categories:

Processed: Student’s FAFSA was processed with no errors!

Submitted (missing only student and/or parent signature): Student submitted a FAFSA via www.fafsa.gov but it wasn’t able to be processed because either the student or parent (or both) didn’t sign. To fix this, the student should log back into their FAFSA and confirm their PIN and parent PIN information is entered correctly.

Submitted (has other errors): Student submitted a FAFSA via www.fafsa.gov but has other errors than missing only missing a signature. Student should log back into their FAFSA to investigate.

Unmatched: Student has not submitted a FAFSA (likely) or student’s OSPI and FAFSA data did not match (less likely). Reminder: You can match a student with a potential match if you know the student is the same in the students section of the portal.

Please note: Your district signed an agreement stating that you will use the data available in the portal for its intended purposes in working with students on completing the FAFSA. If you have any questions about the data usage agreement please contact your district’s data receiver for the portal or Sarah Weiss, Assistant Director of College Access and Support at the Washington Student Achievement Council.

Access to the Portal: https://fortress.wa.gov/wsac/portal/Home/Login

How to use the Portal:
Viewing your district’s information:

1. Aggregate data by school is viewable in the graphs section of the portal.
2. Pulling student data

   1. Choose which school and/or district you want to view
   2. Choose which list of students you want to see (leave blank if all)
   3. You can sort in the portal by different headers or...

   Export data to a CSV file

3. Viewing an individual student’s data and matching unmatched students
   1. Pull only unmatched students by checking the unmatched box. Sort by “match” in the headers (click twice) to pull the students who are unmatched but have potential matches at the top.

2. View the details of the student record:
3. Review potential matches

**FAFSA Details**

We couldn’t find a strong enough matching FAFSA record.

Help train our robots! Review 1 possible FAFSA match(s)

4. Determine if the student is a match based upon your knowledge of your students and comparing their OSPI data and the FAFSA data. Click the appropriate button based on your decision.

<table>
<thead>
<tr>
<th>OSPI Details</th>
<th>FAFSA Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>match strength: 20%</td>
<td>Is a Match</td>
</tr>
</tbody>
</table>

5. To return to your list of students:

If you are a district administrator you can add individuals from your district and give them district access or specific school access (i.e. a counselor at X High School): User section.
1. Enter their email address
2. If they already have an account for the WSAC Portal (perhaps from another system portal) then you can just grant them specific permissions by adding the school or district.

3. If they do not have an account it will prompt you to enter their contact information first and then add their permissions. You are expected to go over the confidentiality requirements as stated in the data usage agreement signed by your superintendent denoting you as the “Data Receiver”.
